

## Activity 2 - Directed Graph

---

### What to Do

---

Given the following directed graph:

1. Define the:

$$G = (V, E)$$

2. Find the outdegree and indegree:

Node	Outdegree	Indegree
1	?	?
2	?	?
3	?	?
4	?	?

### When to Do It

---

Before next week class

### Advice

---

Base from lesson 2
